

## Albany International Issues 2025 Sustainability Report

June 9, 2026

PORTSMOUTH, N.H.--(BUSINESS WIRE)--Jun. 9, 2026-- Albany International Corp. (NYSE:AIN) announced today the publication of its annual Sustainability Report, highlighting the company's achievements and commitments to sustainability and innovation in 2025.

"Our foundation is supporting our customers with continued innovation and building a resilient organization, and our sustainability strategy is critical to meet those objectives. We are proud to showcase our progress over the last year in our annual sustainability report, highlighting how our differentiated technology and talented people work together to solve some of today's toughest challenges," said Gunnar Kleveland, President and CEO of Albany International Corp.

"Sustainability remains at the core of our values, driving innovation and opportunity," said Anna Yates, Sustainability and EHS. "In 2025, we accelerated our work on product sustainability and circularity, and we significantly advanced our renewable energy program. By prioritizing innovative approaches, we help our customers advance on their own sustainability journeys, providing the products and partnerships needed to meet their evolving goals."

Albany International remains committed to transparency, accountability, and open communication. The 2025 Sustainability Report outlines our ongoing progress, new areas of opportunity, and future plans to further enhance our sustainability performance.
