SAFE HARBOR

This presentation contains certain items, such as earnings before interest, taxes, depreciation and amortization (EBITDA), Adjusted EBITDA, Adjusted EBITDA Margins, Free Cash Flow and net debt, as well certain income and expense items on a per share basis, that could be considered ‘non-GAAP’ financial measures under SEC rules. We think such items provide useful information to investors regarding the Company’s operational performance.

This presentation also may contain statements, estimates, or projections that constitute “forward-looking statements” as defined under U.S. federal securities laws. Forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the Company’s historical experience and our present expectations or projections as expressed or implied by the forward-looking statements in this presentation.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future events, results, actions, levels of activity, performance or achievements. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements. Viewers are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update them publicly in light of new information or future events.

Certain additional disclosures regarding our use of “non-GAAP” items (including reconciliations to GAAP measures) and forward-looking statements are set forth in our SEC filings, including our most recent annual and quarterly reports. Please refer item 7 in the Annual Report on Form 10-K for the concise reconciliation of our non-GAAP measures. Our use of such items in this presentation is subject to those additional disclosures, which we urge you to read.

A close-up photograph of a circular fan with multiple blades. The blades are a light green color and are arranged in a circular pattern. The fan is set against a dark background, and the lighting creates a strong contrast between the blades and the background. The fan is positioned on the right side of the slide, with a blue vertical bar on the left side containing text.

TECHNOLOGY EXPERTS SERVING VITAL INDUSTRIES

MACHINE CLOTHING

Engineered product solutions for the pulp & paper and other process industries

- Consumable, continuous replenishment
- Proprietary
- Tailored, customized products
- Harsh environments
- Mission-critical: essential to reliable machine operation
- Key element that defines product attributes & quality

ENGINEERED COMPOSITES

Engineered product solutions for the Aerospace and Defense industries

- Proprietary solutions
- Broad range of product offerings and production processes
- Engineering capability
- Mission-critical solutions for harsh environments
- Lightweight
- Support all platform types: fixed-wing, rotorcraft unmanned aircraft, and missiles

GLOBAL OPERATIONAL SUCCESSES DELIVERING POWERFUL RESULTS

Critical Customer Partnerships

- Deep relationships with customers
- Demonstrated ability to grow with a customer

Market Selection

Geographic and end markets

- Multi-year strategic focus on the growing MC markets
- Presence on the right next-generation aerospace platforms

Innovation

- Continued investment in our technology to maintain leadership position
- Emphasis on technology discrimination that delivers enhanced value to customers

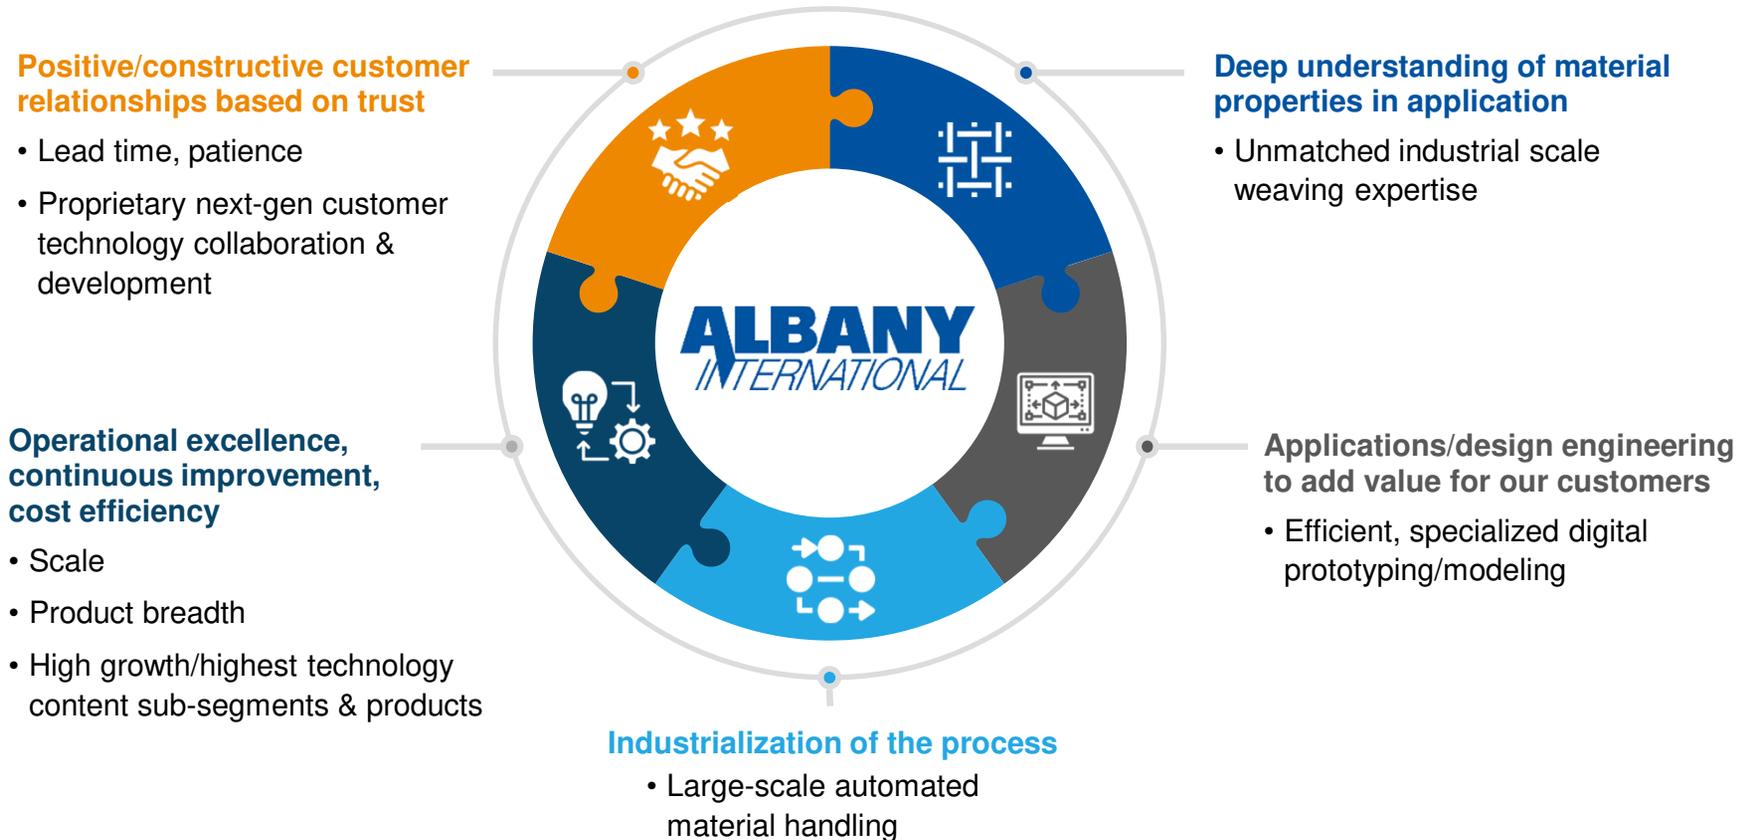

Operational Excellence

- Long-term track record of driving margin increases through continuous improvement
- Optimized global footprint in both segments

Growing Partner-of-Choice for Market Leaders

STRATEGY FOR CONTINUED VALUE CREATION

SOLUTIONS POWERING GLOBAL TRAVEL

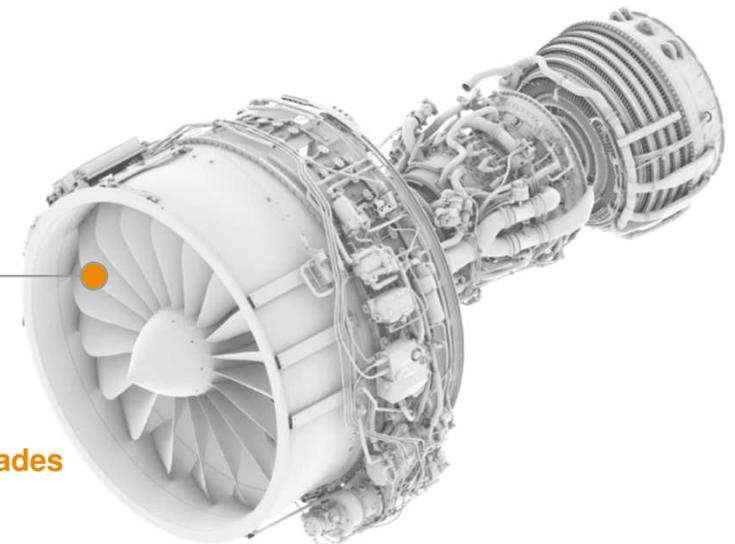

Our composite solutions not only make aircraft lighter, improving fuel efficiency...

... but make the engines themselves more efficient, by reducing rotating weight

3D-woven composite blades

- Lighter
- Stiffer
- More damage tolerant
- Certified for life of the engine

AEROSPACE SEGMENT POISED TO OUTGROW GLOBAL RECOVERY

Commercial Aviation Recovery

Increasing production rates for 737MAX, A320Neo

Expect 787 & GE9X production to increase as recovery in international travel emerges

Defense Priorities

Albany's defense programs align with DoD priorities, have growing production rates

Emerging Opportunities

Bizjet growth & emerging sustainable technologies

WELL-POSITIONED TO TAKE ADVANTAGE OF GLOBAL PAPER DEMAND GROWTH

E-Commerce

One component driving secular growth in paper packaging demand

Growing Global Middle Class

Per-capita consumption growth in the developing world for all grades

Non-Cyclical Tissue Business

Tissue demand is resilient in economic downturns

Sustainability & Environmental Drivers

Renewable paper products are an environmentally responsible choice versus plastic

WELL DEFINED CAPITAL PRIORITIES THAT DRIVE STRONG ORGANIC GROWTH

MARKET LEADER

GLOBAL PAPER MACHINE CLOTHING MARKET SHARE

FOUNDATIONS OF SUCCESS

We continuously optimize Machine Clothing to maintain marketplace leadership

Constant optimization and LEAN principles to drive efficiency into the business

Our optimized, global footprint provides us access to key customers and markets

Build stronger customer relationships and partnerships

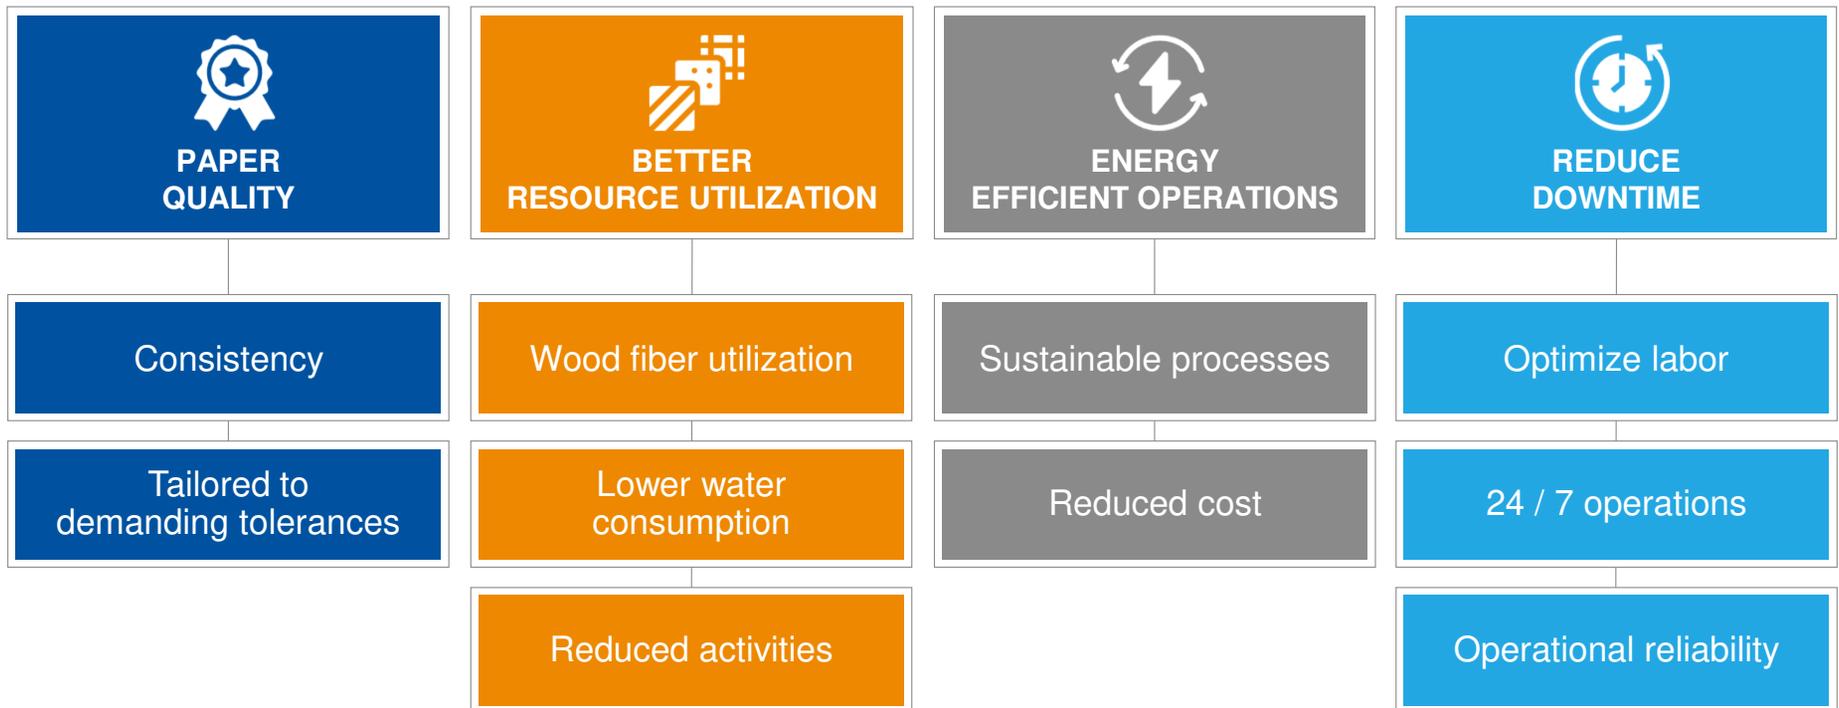

Leading products as a result of our R&D activities

Investment to modernize and automate our plants

Well-positioned to maintain and enhance our market-leading status

VALUE TO CUSTOMERS = CONSISTENT QUALITY, GREATER EFFICIENCY, GREATER PROFITABILITY

STRATEGY FOR SUSTAINED GROWTH

A focus on Tier One Customers while serving targeted Tier Two Customers in the right grades to capture further business

OPERATIONAL EXCELLENCE

- Eliminating non-value added activities
- Using cost effective techniques across all functions
- Maintaining our low-cost platform

R&D INVESTMENT

- New technologies for key customers and growing grades

TIER ONE ATTRIBUTES

PRIORITIES BASED ON MAXIMIZING SHAREHOLDER VALUE

TOP PRIORITIES

1

MAXIMIZING OUR CUSTOMER SOLUTION OFFERING

Focus on providing the **best value propositions** and experience with targeted customers

Reduce costs and **optimize** proven manufacturing capabilities

2

CONTINUING TO DRIVE TECHNOLOGY DIFFERENTIATION

Proliferate 3D woven technology across Next-Gen airframes and Next-Gen engines

Mature process technologies to **capture growth** in core and adjacent markets

3

OPPORTUNISTIC M&A

Accelerate **readiness and positioning** of process technologies

Broaden capabilities, expand global footprint, access target customers or platforms, and gain talent

By Segment

Significant Strategic Benefits

Opportunity of Scale to Strengthen Customer Value Proposition

FULLY ALIGNED WITH M&A CRITERIA

Complementary market positions create differentiated manufacturing, sales and service network

- Broadens European footprint – Heimbach's strength in central European markets complements Albany's northern European presence
- Adds Asian capacity to address local market growth, service customers throughout the region

Continued operational scale to drive market-leading cost position

- Leverages Albany's industry-leading operational execution (operations, quality, technology)
- Provides opportunity to reduce supply chain complexity and shorten lines of logistics
- Provides insourcing opportunities

Technologies that further enhance our product differentiation

**Excellent cultural fit.
Strong, management team.**

Leverages Albany's long-term track record of operating expertise.

Significant Financial Benefits

Provides attractive financial returns

- IRR well above cost of capital
- EPS accretive beginning in year 2
- Cash flow accretive beginning in year 2

Maintains balance sheet strength

- Net leverage increase $\frac{1}{2}$ turn from 0.7x to 1.2x
- Less than 0.1x impact to debt covenant calculation
- Cash position remains well in excess of \$100 million

Line of sight to expand Heimbach Group margins and drive combined efficiency gains

- 2022 EBITDA margin:
 - Heimbach 9%
 - Albany MC 37%
- Albany has clear operational playbook with deep understanding of industry dynamics
- Effective purchase multiple in year 3 of 3.5x to 4.0x EBITDA driven by efficiencies and cost savings
