Report of Independent Registered Public Accounting Firm

To the Plan Participants and Plan Administrator of Albany International Corp Prosperity Plus Savings Plan:

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Albany International Corp. Prosperity Plus Savings Plan (the Plan) as of December 31, 2019 and 2018, the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019 and 2018, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Accompanying Supplemental Information

The supplemental information in the accompanying Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2019 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ KPMG LLP

We have served as the Plan's auditor since 2014

**Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018**

1. Description of Plan

The following description of the Albany International Corp. (the "Company") Prosperity Plus Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all domestic employees of the Company and its subsidiaries, except those covered by a collective bargaining agreement that does not provide for participation in the Plan, temporary employees, leased employees, contractors, interns and co-op students. Eligible employees hired on or after January 1, 2009, automatically become participants in the Plan for purposes of making Pre-Tax Participant Contributions, unless otherwise elected by the participant.

Contributions

Participants may make voluntary contributions to the Plan, that do not exceed the greater of 100% of the Participant's Compensation, subject to certain limitations, on a before-tax and/or after-tax basis as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions, as well as the employer contributions, into various investment options offered by the Plan. The Plan currently offers various investment options including registered investment companies, common stock, common collective trusts, and a participant directed brokerage option. The Company makes a matching contribution to the Plan up to 5% of the participant's eligible compensation of which 100% is matched of the first 4% and 50% is matched of the next 2% contributed by the participant.

Discretionary Matching Contributions

The plan allows for discretionary matching contributions. The Company uses such discretion to provide profit sharing contributions to eligible plan participants. Such contributions are based on Company performance and vary from year to year. Discretionary matching contributions are based upon a minimum 1% employee participation in the Plan and are in addition to, and separate from, Company non-discretionary matching contributions. In order to receive a discretionary matching contribution, an employee must be an active contributing participant in the Plan on the last day of the year for which the discretionary matching contribution is made. If an employee is eligible, yet chooses to participate for less than a full year, the discretionary matching contribution will be pro-rated. The Company's discretionary matching contribution is in the form of cash and was \$3,726,306 and \$3,094,128 for the years ended December 31, 2019 and 2018, respectively. Discretionary matching contributions are reported as Employer Contributions within the Statements of Changes in Net Assets Available for Benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, minus the participant's highest outstanding note balance over the last

**Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018**

12 months, or 50% of their account balance. Interest rates on notes are determined by the Compensation Committee from time to time with the rate remaining constant throughout the life of the note (rates, which are calculated as prime rate plus 1%, range between 4.25% and 10.25% at December 31, 2019 and 2018). Notes are to be repaid through payroll deductions, although they may be repaid in a lump sum amount, generally over a period from 1 to 5 years except for notes for the purchase of a primary residence, which range from 1 to 20 years.

Vesting

Participants are vested immediately in their and the Company's contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service, total disability, death or retirement, participants have the option to receive an amount equal to the value of their accounts in a lump sum payment or, in the case of total disability or retirement, monthly installments over a period not to exceed 15 years. Participants may also elect prior to retirement to withdraw up to 100% of their after-tax contributions and up to 100% of before-tax contributions if the Internal Revenue Service's criteria for "financial hardship" are met.

Plan Termination

The Company intends to continue the Plan indefinitely but reserves the right to modify, amend, suspend or terminate the Plan. In the event of plan termination, distributions would be allocated based on the value of the participant accounts.

Administrative Costs

Certain direct costs incurred in administering the Plan are borne by the Company. The Company paid Plan administrative expenses of \$150,922 and \$132,476 during 2019 and 2018, respectively, which principally consisted of plan fiduciary services. Expenses paid by the Plan included investment advisory fees, and securities brokerage fees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the Statement of Net Assets Available for Benefits date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

**Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, common collective trusts, registered investment companies and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect investment and thus investment securities performance. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for discussion of fair value measurements.

Security transactions are recorded on a trade-date basis. Gains or losses on sales of securities are based on average cost.

Dividend income is recorded on the ex-dividend date. Dividends declared by the Board of Directors of the Company on Albany International Corp. Class A common stock may be reinvested in the Plan or received as a cash distribution as elected by the participant. Total cash dividends received by participants were \$259,408 and \$283,579 for the years ended December 31, 2019 and 2018, respectively. Interest income is recorded as earned.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation/depreciation in the fair value of its investments, which consists of realized gains and losses and unrealized appreciation/depreciation on those investments.

Payment of Benefits

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Fees related to participant loans are paid by the participants. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent participant loans are recorded as deemed distributions on the basis of the terms of the Plan agreement.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees charged by fund managers are included in net appreciation/ depreciation of fair value of investments.

Recent Accounting Pronouncements

The Company has not adopted any recent accounting pronouncements that had a significant effect on these financial statements. In August 2018, an accounting update was issued, which aims to

**Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018**

improve the overall usefulness of disclosures to financial statement users and reduce unnecessary costs to companies when preparing fair value measurement disclosures. This update is effective for annual periods in fiscal years beginning after December 15, 2019. We plan to adopt the new standard effective January 1, 2020. We do not expect the adoption of this update to significantly impact our financial statements.

Subsequent Events

Management considers events or transactions that occur after the balance sheet date, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through the date the financial statements were available for issuance.

In March 2020, the U.S economy and investment markets were affected by the COVID-19 pandemic. Most of the Plan's investments and corresponding participant account balances declined during that period. While many investments have since recovered most of those losses, investment markets remain volatile and additional investment losses and declines in participant account balances are possible and could be material.

3. Fair Value Measurements

The *Fair Value Measurement* topic of the FASB *Accounting Standards Codification* provides the framework for measuring fair value. That framework provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical assets or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset and liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs are unobservable and significant to the fair value measurement. Level 3 inputs are unobservable inputs for the asset or liability, and include situations in which there is little, if any, market activity for the asset or liability. The unobservable inputs reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018

Investments in registered investment companies are valued using the quoted sales price on the last business day of the year, which represents the net asset value of shares held by the Plan at year-end.

Common stock, preferred stock, and other self-directed brokerage accounts (exchange traded funds, closed-end funds, mutual funds and money market funds), are valued using active markets at the latest quoted sales price on the last business day of the year on its principal exchange.

Investments in common collective trust funds are valued at the net asset values (NAV) per share using available inputs to measure the fair value of such funds held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the funds, less fund liabilities. The NAV is not used when it is determined to be probable that the fund will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no penalties or restrictions for withdrawing assets from the common collective trust funds at any time.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019			
	Quoted prices in active market Level 1	Significant other observable inputs Level 2	Significant unobservable inputs Level 3	Total

Albany International Corp.
Prosperity Plus Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018

4. Related Party and Party in Interest Transactions

The Plan invests in shares of mutual funds (including the Vanguard brokerage option) managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC acts as trustee for the investments held by the Plan. The Plan also invests in shares of the Plan Sponsor's Albany International Class A common stock. The Plan purchased \$262,831 and \$289,150 and sold \$4,026,827 and \$6,226,285 of Albany International Class A common stock during the years ended December 31, 2019 and 2018, respectively. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Participant loans also qualify as party-in-interest transactions.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 21, 2016, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, management and ERISA counsel believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants that are in default continue to be treated on the financial statements as notes receivable, but are treated on Form 5500 as deemed distributions, which are considered taxable distributions from the Plan.

A reconciliation of total investments per the financial statements at December 31, 2019 and 2018 to the annual report filed on Form 5500, Schedule H as required by the Department of Labor follows.

	2019	2018
Total investments per financial statements	\$373,832,427	\$314,205,514
Notes receivable from participants	6,620,595	6,172,091
